New York, Aug. 29.-That the Corbett-McCoy fight will come off on Oct. 1, the new date agreed on a few days ago, is a fact not now questioned by many sporting men, says the World. This delay promises to be an advan-

tage to at least one of the parties in the contract at the Hawthorne club. As Sept. 10 drew near, the ministers, purity leagues and many prominent persons in Buffalo took a stand of open hostility to the fight.

The manager and backers of the club declared that all such agitation was useless; that they were keeping strictly within the limits of the law, and that,

within the limits of the law, and that, therefore, they had nothing to fear. But they were uneasy for all that, and the agents who had tickets for sale in New York were not swamped with applications and greenbacks.

The advantage of the delay is that the Hawthorne club will be able to put et an attraction of good propertions on Sept. 10, and thereby test the ability of the agitators to close them up. This is to be the Erne-Lavigne go for the lightweight championship. It is not befleved that the sports from afar will flock to Buffalo to see this fight in such numbers as they will on Oct. 1, but the local contingent and the devotees nearby will make enough stir to cause the "antis" to take action.

Sweden and Norway and Italy would like to disarm, and might do so with impunity, but for the rest of Europe it is impossible. Europe must fight, lest the present political conditions undergo an early change." IT IS IMPRACTICABLE.

FIREMAN GIFFORD KILLED.

FELL FROM HIS ENGINE YES-TERDAY MORNING.

Skull Was Fractured and the Man Died at St. Mark's Hospital-An Inquest This Afternoon.

Yesterday morning George Gifford, a fireman on a Rio Grande Western freight train, met with an accident while attending to his duties, which resulted in his death. It seems that as the train was coming toward Provo, about three miles east of that city, Gifford took hold of the "shaker" bar and essayed to move it. It was stiff and refused at first to yield, but so suddenly answered to a strong pull that Gifford fell backwards off the moving train, striking with his head on a tie on the track. He was not missed until the train stopped at Provo station, when the engineer, Robert E. David-son, ran his engine back and nicked him up in an unconscious condition. Dr. Allen was called and pronounced him suffering from concussion of the brain. The unfortunate man was brought on to Salt Lake and taken to St. Mark's hospital, where he died three hours after his admission to the institution.
